• Educational and Cultural Programs in Ireland •

# Postsecondary International Network Leadership Summit

September 12-18, 2026, Ireland

The Institute of Study Abroad Ireland has successfully developed long-term partnerships with many U.S. Higher Education Colleges and Universities, and we have also introduced our partners to college- college/university options for Ireland. In September 2026, ISAI presents a bespoke professional development program for faculty and administrators, interested or involved in International Education.

The objectives of the program are:

- Growing higher education enthusiasm and options for internationalizing
- Logistics and supports for both online courses and study travel
- Creating collaborative partnerships with other institutions
- Addressing the challenges of internationalizing the curriculum
- Sharing institutional best practices and updates among PIN members

This program will be a combination of workshops, field trips and seminars, in Dublin City, and at our campus in County Donegal. The itinerary is subject to change, as the focus will be adapted to suit the required outcomes of the group.
